## More Red Streaks

Last week a gentleman who had been indebted for fifteen or twenty years sent word that he wanted to settle up all his claims. We found some of them had been owing for twenty-five years. He paid us \$200 and a piece of real estate and obtained receipts in full on every claim we had against him. We are nstrating every day that Red Streaks of Honesty Exist in Every-body. The fact that claims are turned to us for collection does not mean that our clients have less confidence in their debtors, but it means that our clients need the money. If you need any money, turn in your claims. The science of finance is in obtaining the money that's coming to you. We are scientific collectors of the money.

Though other physicians have, through our success in effecting permanent cures, been convinced of the fact that premanent cures, been convinced of the fact that prematureness, loss of power, etc., are but symptoms resulting from chronic inflammation of congestion in the prostate gland, none have as yet been able to duplicate our cures. Our system of local treatment is the only effective means yet known for restoring the prostate to its normal state, which

always results in full and complete return of strength and vigor. Such a cure is absolutely per-
